

NEW PRODUCT ANNOUNCEMENT

NEW COVID-19 VACCINE MONITORING KITS FROM TANDD

CAS is pleased to announce 4 new temperature monitoring kits designed specifically for new [Covid-19 vaccine](#) applications at -70°C. Utilizing proven TandD TR-7 series data loggers, they include everything needed for monitoring dry ice and ultra-cold transport and storage of the vaccine.

The [WiFi and Bluetooth Dry Ice or Ultra-Low Freezer Monitoring Kit](#) includes a TR-75wb, a two-channel logger for thermocouple sensors with support for WiFi and Bluetooth communication. The [Ethernet Dry Ice or Ultra-Low Freezer Monitoring Kit](#) includes a TR-75nw, a two-channel logger for thermocouple sensors with support for LAN networked communication.

Each Kit Includes:

- A TR-75wb or TR-75nw
- 1 or 2 Temperature Probes
- 1 or 2 Nylon Thermal Buffers
- Mounting Bracket
- Power Supply
- NIST Traceable Calibration Certificate
- AA Batteries for Primary or Backup Power

Pricing for a complete kit starts at \$425

The 100% free TandD [WebStorage Service](#) software, is a cloud-based website for the display and management of recorded data. It provides high/low alarming and quick access to settings. Recorded data can be easily displayed on a dashboard or as a graph for fast and accurate reporting. The WiFi and Bluetooth Dry Ice or Ultra-Low Freezer Monitoring Kit also includes access to the free T&D Thermo mobile app, available on Android and iOS devices, allowing you to view and manage your data anywhere in the world.
